

Brandon - Major Highway Routes

Brandon is located in the heart of Canada, at the junction of the Trans-Canada Highway #1 and Manitoba Provincial Highway #10.

Provincial Highway #10 is the main north-south route in western Manitoba with a 24-hour Canada/United States border crossing 98 kilometres (Km's) to the south. This crossing connects with U.S. Highway #2, a major east-west route across the northern States. Highway #10 also intersects the east-west Canadian Yellowhead Route (#16) just 50 Km's north of Brandon. Both Highway #1 (Trans-Canada Highway) and #10 allow connection to Highway #83, an additional main north-south route.
